

Support Activities Reporting Guidelines

If you have any questions or uncertainties, please contact reporting@evolvinglanguage.ch

Academic Events

Report your active participation or organization of academic events [here](#).

Participation and organization of significant academic events, including organizing workshops and showcasing posters at international conferences, presenting keynote lectures and delivering talks.

Dissemination of Professional Knowledge

Report your professional knowledge dissemination activities [here](#).

Professional knowledge dissemination involves actively sharing knowledge to specific audiences to enhance the expertise of professionals. This process can be directed towards both public and private sectors.

Public communication

Report your public communications [here](#).

Public communications are outreach activities for the lay public that you actively participated in. It can be written contributions (e.g. if you wrote a blog article), participations in events (round tables at science fairs) or if you produced your own creative content (video showcasing your research).

Media coverage

Report your media coverage activities [here](#).

Media coverages are mentions (articles, interviews, social media posts) of your work by media outlets (traditional or not).

Technology Transfer

Technology Transfer refers to the process of conveying results stemming from scientific and technological research to the marketplace and to wider society.

Following types of technology transfer can be reported:

- ❖ IP-Rights [here](#).
- ❖ Licenses [here](#).
- ❖ Prototypes and demonstrators [here](#).
- ❖ Start-ups and spin-offs [here](#).
- ❖ CTI-Projects [here](#).
- ❖ Others [here](#).

Scientific Service

Report your Scientific services [here](#).

Scientific services are tools (software, toolkits, questionnaire or databases) meant to serve the NCCR researchers, other scientists or other private sector clients.

Measures on education and training (EDU)

Report your measures for education and training [here](#).

Measures for education and training are targeted to ECRs (early career researchers), such as writing retreat, workshops...

Measures on Equity, Diversity and Inclusion (EDI)

Report your measures for EDI [here](#).

Measures for equal opportunities are activities meant to target specific needs of NCCR members, such as childcare, accommodations for physical disabilities and support diversity within the community.

Scientific publications and datasets

- ❖ Please report your NCCR-related publications and datasets on [OpenBis](#) following the [Publication reporting guidelines](#).
