## Invention Disclosure

Any invention resulting from research conducted at the University of Geneva (UNIGE) and/or at the Geneva University Hospitals (HUG) has to be announced to Unitec (UNIGE) or the Bureau de l'innovation (HUG).

The purpose of this form is to record the invention and the circumstances under which it was generated.

This document will be used to evaluate whether it would be appropriate to attempt to commercialize the disclosed invention. It will also serve as a basis for a potential patent application.

If the invention is successfully commercialized, any revenue received by UNIGE and/or HUG will be redistributed according to the *Directives en matière d'accords de transferts de technologies et de compétences* (UNIGE) and/or the *Directive en matière de transfert de technologie et de promotion de l'innovation* (HUG). The inventor share to be redistributed to the UNIGE and/or HUG inventors will be calculated taking into account their relative contribution to the invention, as indicated in this document.

Please fill out the form, have it signed by all the inventors, and send the original to Unitec (UNIGE) or the Bureau de l'Innovation (HUG):
